

# GROBA'S UNIQUE STORY

**March 25, 1977**

# Groba's first portioning machine: **L7007**

## GROBA'S UNIQUE STORY

---

# Groba still builds portioning machines: Groba PHI series

You can now customize your PHI to perfectly match your needs. Enhance safety with a protective screen, improve precision with a manual centering unit, or optimize performance with a heated cutting knife. Plus, the exchangeable cutting sets are tailor-made for your specific requirements.

## GROBA'S UNIQUE STORY

---

The foundation of the portioning machine has always been the same: portion cutting. And it will always remain that way.
